

In a hurry? These tags can be customised, including your logo and a barcode.

- Duraguard is an efficient way to track and identify your assets and provide a visual deterrent against theft.
- Can be customised with your choice of wording.
- Manufactured from metalised polyester, and laminated with a tough, clear film ensuring the print can't be rubbed or scratched off.

Types of Duraguard

Standard – see opposite page

Tamper Evident – see page 130

Micro Tags – see page 131

Two Part Tags – see page 132

Standard Asset Tags

Use on everything – from computers, IT equipment and office furniture to tools, machinery, equipment and electrical appliances.

- Made from durable 0.15mm metalised polyester which is overlaminated to prevent printing from being rubbed or scratched off.
- Able to withstand temperatures from -40°C to +145°C.
- Customise with your choice of wording and include your company logo for FREE.
- Can be consecutively numbered with FREE barcodes to correspond with your numbering sequence.
- Available in 2 sizes.

Your design options:

Sizes

19 x 38mm

19 x 51mm

Colours

Barcodes

Include FREE barcodes to correspond with your numbering for more accurate asset tracking.

Code 39 (Default)

For asset tracking, inventory control, warehouse and distribution

Code 128

For automotive assembly, medical devices and fixed asset tracking

Interleaved 2 of 5

For retail warehouse and distribution, cargo handling and batch numbering

Numbering

19 x 38mm up to 6 digits.
19 x 51mm up to 9 digits.

0001

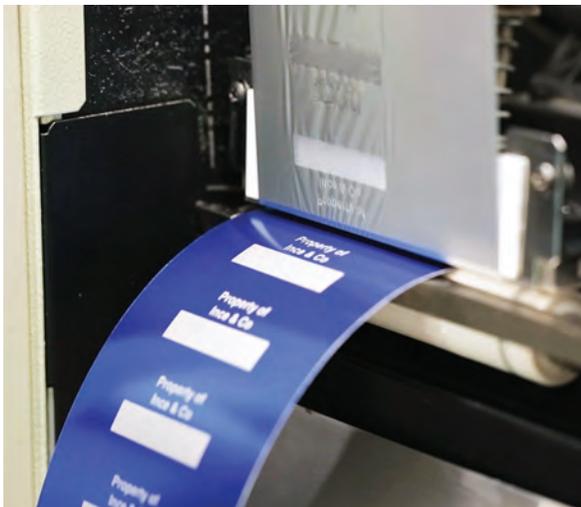

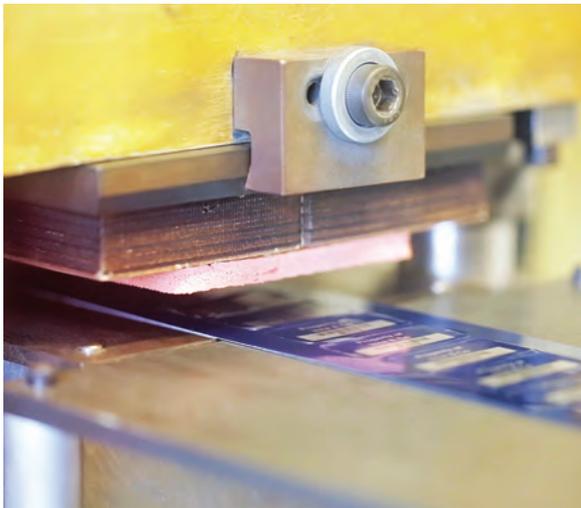

Logos

If you wish to include a FREE logo we recommend 19 x 51mm tags.

Adhesive

Permanent universal adhesive is specially formulated to adhere to a wide range of surfaces indoors and out.

Price per pack of 100 tags.

Code	Description	Size (W x D)	1-2	3-4	5-9	10-24	25-49	50-99	100+

DRG2	Without Barcode	19 x 51mm	£179.95	£159.95	£127.95	£101.95	£81.95	£61.95	£51.95

Leaves visible evidence when removal is attempted and ensures the tag cannot be reused

Leaves visible evidence when removal is attempted and ensures the tag cannot be reused

Tamper-Evident Asset Tags

Leaves a checkerboard pattern when removal is attempted.

- Ideal for portable assets and situations where security is a concern and a visual deterrent against theft is required.
- If removal is attempted a checkerboard adhesive residue is left behind on both the tag and the asset.
- These tags also lose their adhesive once removed to prevent reuse.
- Made from durable 0.15mm metalised polyester which is then overlaminated so that printing cannot be rubbed or scratched off.
- Customise with your choice of wording and include your company logo for FREE!
- Can be consecutively numbered with FREE barcodes to correspond with your numbering sequence.
- Able to withstand temperatures from -40°C to +145°C.
- Available in 2 sizes.

Ideal for tracking your portable assets

Add barcodes to your asset tags absolutely FREE

Micro Asset Labels

For use on smaller assets such as mobile phones or small electrical appliances.

- Permanent adhesive allows product to be used both indoors and out.
- Manufactured on 0.15mm metalised polyester with an over laminate so the print is unable to be rubbed or scratched off.
- Can withstand temperatures from -40°C to +145°C.
- Sold in packs of 100.

Your design options:

Asset Pro

Efficient and easy way to track your assets.

- Easily import your existing data.
- Uses a cloud based system that enables users to access the system at anytime and anywhere.
- Multiple users can have access and be used at the same time.
- Secure back up system to ensure no data is lost.
- Compatible with iOS and Android mobile devices.
- Download the Free Asset Pro app from the App Store or Google Play for Android.
- App allows you to scan in new barcodes/QR codes
- Ability to save assets live - a 3G or wifi connection needs to be available.
- Visual icons aid in easy navigation.
- Optional mandatory and non-mandatory fields.

3 packages are available:

- Silver package – covers up to 300 assets
- Gold package – covers up to 1000 assets
- Platinum package – unlimited number of assets

Pricing is based on an annual subscription.

Design a Sign

Your Text – Your Colours – Your Choice

Create your own safety signs quickly and easily. All signs will comply to all relevant UK safety sign legislation, now including the new ISO 7010 legends.

How to Order Your Design-a-Sign Safety Signs.

Step 1 – Choose a layout (Portrait, landscape or square) and the symbol for your safety sign.

Step 2 – Specify the relevant text (up to 30 words) required on your signs.

Step 3 – Determine what size you would like.

Step 4 – Select your preferred material from the below.

Step 5 – **CALL US!!**

*Large Order!
Call us for a quote!*

0.9mm Aluminium

- High gloss finish.
 - Radius corners.
 - Suitable for indoor and outdoor use.
- Main benefits:** Tough with high gloss finish.

3mm Aluminium

- High gloss finish.
 - Recommended for outdoor use, can be post or wall mounted.
 - Will not rot or rust.
 - Radius corners add style and ensure safety when signs are post mounted.
- Main benefits:** Will not rot or rust.

1.2mm Polypropylene Rigid Plastic

- The easiest type of plastic to recycle, and offers 'closed loop' recycling as it can be made into itself again, and again...
 - Durable plastic suitable for indoor and outdoor use.
- Main benefits:** Lowest cost rigid material, durable, wide range of applications.

Self-Adhesive Vinyl

- A gloss finish, adhesive material with a peel off backing for easy fixing.
 - Suitable for indoor use and some external covered areas.
 - Apply to a clean, dry, smooth surface for best results.
- Main benefits:** Low cost, ideal for curved surfaces, no fixings required.
Temperature range: -40°C +100°C

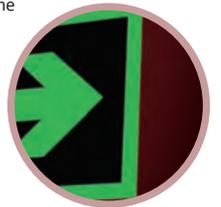

Photoluminescent Self-Adhesive NiteGlo

- Provide effective escape route illumination in the event of power loss – 5 minute recharge time.
 - Conforms to PSPA Class B, stays illuminated for over 6 hours.
 - Apply to a clean, dry, smooth surface for best results.
- Main benefits:** Enables employees and visitors to clearly identify escape routes.
Temperature range: -40°C +80°C

Photoluminescent Rigid NiteGlo

- Provide effective escape route illumination in the event of power loss – 5 minute recharge time.
 - Conforms to PSPA Class B, stays illuminated for over 6 hours.
- Main benefits:** Lowest cost rigid material, durable, wide range of applications.
Temperature range: -40°C +80°C

2mm Polycarbonate

- Undersurface printed polycarbonate produces a high gloss finish.
 - Impact and abrasion resistant material strongly resists vandalism without splitting or breaking.
 - Suitable for indoor and outdoor use.
- Main benefits:** Our most stylish looking high performance material.
Temperature range: -40°C +135°C

3mm Foamed PVC

- White face to clearly display safety message.
 - High gloss finish.
 - Suitable for indoor and outdoor use.
- Main benefits:** Tough, used mainly in the construction industry.

CALL TODAY FOR A QUOTATION!

THE HEALTH & SAFETY (FIRST AID) REGULATIONS 1981; ACOP REG. 3(1)

Requires employees to provide adequate and appropriate equipment, facilities and personnel to enable first aid to be given to your employees if they are injured or become ill at work.

These Regulations apply to all workplaces including those with 5 or fewer employees and to the self-employed. The minimum first aid provision on any work site is:

- A suitably stocked first aid box.
- An appointed person to take charge of the first aid arrangements.

What size kit do I need?

The size of the kit required is dependant on a combination of the level of risk in the workplace and the number of employees.

Category of risk	How many employees do you have?	What first aid personnel do you need?
Low risk e.g. offices, shops, libraries	Less than 25	At least one appointed person*
	25-50	At least one first aider (EFAW trained)
	More than 50	At least one first aider per 100 employees (FAW trained)
Higher risk e.g. light engineering and assembly work, food processing, warehousing, work with dangerous machinery or sharp instruments, construction, chemical manufacture, work involving hazards e.g. hydrofluoric acids or confined spaces	Less than 5	At least one appointed person*
	5-50	At least one first aider per 50 employees** (EFAW or FAW trained)
	More than 50	At least one first aider per 50 employees (FAW trained)

This table is for guidance only and each workplace needs to evaluate its own level of risk. Special circumstances need to be considered e.g. remoteness from medical services and sites with several buildings. In these instances there may need to be more first aid kits than set out in the table.

The Health and Safety (First Aid) Regulations 1981 ACOP reg. 3(4)

States that an employer should make an assessment of first aid needs appropriate to the circumstances of each workplace.

The table below should help an employer assess the risk and therefore the appropriate number of first aid personnel required.

Category of risk	How many employees do you have?	Number & Size of First Aid Kit
Low risk e.g. offices, shops, libraries	Less than 25	1 Small Kit
	25-100	1 Medium Kit
	More than 100	1 Large Kit per 100 employees
Higher risk e.g. light engineering and assembly work, food processing, warehousing, work with dangerous machinery or sharp instruments, construction, chemical manufacture, work involving hazards e.g. hydrofluoric acids or confined spaces	Less than 5	1 Small Kit
	5-25	1 Medium Kit
	More than 25	1 Large Kit per 25 employees

* Where first aiders are shown to be unnecessary, there is still a possibility of an accident or sudden illness, so you should consider providing qualified first aiders.

** The types of injuries that might arise in working with the hazards identified will influence whether the first aider should be trained in EFAW or FAW.

HSE First Aid Kits

BS 8599 compliant contents in a value box.

- These great value kits are supplied stocked with HSE approved content and comply fully with BS 8599.
- Available as small, medium and large kits.
- Supplied in hinged plastic cases which are robust, dust-proof and easy to clean.
- Case also has integrated handle and dual safety clips.
- High quality plasters and dressings.

302YBA100	Medium Kit Aura Box	£25.99
302YCA100	Large Kit in Aura Box	£29.99

First Aid Kit Refills

Great for refilling your first aid kits.

- See table above for contents of each refill kit.
- Contents are colour coded for easy identification.
- Can be used on their own or as supplementary components.
- Comply with BS 8599-1 : 2011

Code	Description	Price
FAD2052	Small First Aid Refill	£13.99
FAD2053	Medium First Aid Refill	£17.99
FAD2054	Large First Aid Refill	£22.99

Tamperproof First Aid Inspection Labels

Provides visual evidence of kits being opened to aid inspection management

- Enable your staff to know, at-a-glance, whether your first aid equipment has been opened.
- Quickly identify the condition of your first aid kits and products – an intact seal gives peace of mind that the contents are complete.
- In case of a damaged seal, check contents and replace if necessary.
- Enables efficient management of your first aid supplies to ensure you remain compliant with Health and Safety Laws.

Easiplaster

Fast and easy alternative to standard plasters

- Fuss free application makes this product perfect for immediate response to accidents.
- Adhesive free and designed to stick to itself, not to skin, hair, or wounds, ensuring comfortable removal.
- Easy-tear material means Easiplaster can be torn to the required size - no wastage.
- Reliable and practical - can be placed directly over the wound and wrapped securely.
- No need for scissors - packaging box acts as handy dispenser.
- For more serious injuries, apply more layers and press together - Easiplaster will contain severe bleeding.
- Particularly suitable for fingers, hands, arms, or legs.
- Stretchy fabric provides an easy application and flexibility during use.
- Easiplaster is washproof for great usability in many environments.
- Roll measures 60mm x 5m.

Simply wrap Easiplaster around the affected area

Sticks to itself, not to skin

Ideal for cuts on fingers

Code	Price
FAD0159	£5.95

White Microporous Tape

Instant Cold Packs

Instant and effective first aid ice packs for aches and sprains

- Simply place instant ice pack over the injury for immediate, cooling relief.
- Enable immediate treatment of sports injuries, bruises, strains and sprains.
- An ice pack reduces the swelling by slowing down the blood flow into an injured area.

Code	Description	Price
FAD2124	Standard Instant Ice Pack (Pk of 10)	£8.99
FAD2125	Mini Instant Ice Pack (Pk of 10)	£7.99

Pocket Mask Resuscitator

Essential pocket resuscitation aid

- One-way valve prevents the risk of infection and allows user to control breath.
- Suitable for adults and children.
- Supplied in a durable case.
- Elasticated headband.
- Store next to your AED or first aid kits.

Code	Price
FAD2162	£9.99

Resuscitation Face Shields

Prevent cross contamination between patient and first aider during CPR

- Plastic film acts as a barrier against contamination.
- Supplied with full user instructions.
- One-way valve or filter paper design.

Code	Qty.	Price
FAD2161 (with valve)	1	£5.75
FAD2171 (with filter)	1	£1.99

Face Shield in Key Fob

Always be prepared with this handy first aid essential

- Resuscitator held within a green pouch that conveniently clips onto your keyring.
- One-way valve allows mouth-to-mouth resuscitation to the casualty but reduces the risk of contamination to the rescuer.
- Single use only.

Code	Price
FAD2163	£6.75

Re-Usable Hot/Cold Packs

For fast and effective pain relief

- Re-usable packs can be used for both hot and cold therapy.
- Either heat in a microwave or chill in a freezer.
- Simply place on the injury for immediate pain relief.
- Burst and puncture-resistant sachet is filled with non-toxic gel.

Code	Description	Size (mm)	Price
FAD2126	Standard Pack	270 x 165	£5.75

Red Cotton First Aid Blanket

Essential first aid

- High quality washable cotton.
- Cellular design traps air, is light and ideal for keeping a patient warm.
- Hemmed edge.

Code	Description	Price
FAD2033	Red Cotton Blanket	£34.99

Emergency Foil Survival Blankets

Keep accident victims warm and dry

- A disposable aluminium foil survival blanket keeps the patient warm and dry by reflecting body heat.
- Essential for all first aid kits, a foil blanket doesn't just protect but can potentially save lives when people are at risk of hypothermia.
- Protects against wind and rain.

Code	Description	Price
FAD2032	Foil Blanket (Pk of 10)	£9.99

Fire Safety Information

Use this table to determine the suitable extinguisher for the required application.

Guide to Fire Extinguishers

Extinguisher Type	Example Application	Class A	Class B	Class C	Class D	Class F	Electrical
		Fires involving carbon-based materials such as wood, paper or textiles	Fires involving flammable liquids, such as petrol, diesel, oils, etc	Fires involving gases	Fires involving flammable metals	Fires involving cooking oil and fats	Fires involving electrical equipment
WATER	Stairwell, corridor, storeroom, warehouse, building site	✓					
FOAM	Fuel station, office, classroom, site cabin, reception, kitchen	✓	✓				
CO2	Electrical areas, office, server room, lab, surgery, manufacturing, warehouse		✓				✓
DRY POWDER	Vehicles, boats, warehouse, plant room, workshop, building site	✓	✓	✓	✓*		✓
WET CHEMICAL	Commercial kitchens, fast food outlets, canteens, mobile catering					✓	

Lots of areas will require two or even three extinguisher types to cover all hazards e.g. an office typically requires a foam extinguisher together with a CO2 extinguisher and a building site could require water, foam & powder extinguishers.

*Specialist Powder used for flammable metal risk in engineering workshops, laboratories, print rooms, etc

FIRE SAFETY

CO2 Fire Extinguishers

Designed for fires involving electrical equipment, CO² is clean and harmless to equipment and machinery.

- Use on fires caused by electrical equipment, petrol, diesel, paints and other flammable liquids.
- Supplied fully charged and with brackets for easy mounting.
- Colour-coded handles 2kg model fitted with a 'frost-free horn'.
- BSEN3 and CE marked.
- 5 year guarantee.

- Maximum window ledge depth is 325mm.

Code	Size (L)	Price
ESCL1	4.5m	£59.25
ESCL2	7.5m	£118.00

WHAT IS PPE?

Personal Protective Equipment (PPE) means all equipment (including clothing giving protection against the weather) which is worn or held to protect against risks to health or safety.

The main legislation governing PPE at work is the Personal Protective Equipment Regulations 1992. It is a legal responsibility for employers to ensure that suitable PPE is provided to employees exposed to a risk to their health or safety. A risk assessment may be required to identify the suitability of the PPE to be provided.

Employers must also ensure that the PPE is maintained and suitably stored. All our products meet strict European Standards as indicated by the CE mark. EN (European Norm) numbers also help to identify the standards that the product/garment conform to.

- Supplied with Pictogram.
- Int. Dim: 230 (H) x 299 (W) x 192mm (D).
- Ext. Dim: 236 (H) x 315 (W) x 200mm (D)

Code	Description	Price
8623105	Blue	£37.99

Secubox with Compartments

Easily store your safety goggles.

- Available with 4 or 12 compartments.
- Each box comes with the standardised Goggles symbol.
- Fastenings are also included to allow easy fixing.
- Manufactured on blue ABS, which is dirt, dust and water-resistant.

Code	Size (H x W x D)	Holds	Price
8623107	236 x 120 x 120mm	4	£63.00
8623106	236 x 315 x 200mm	12	£120.40

Rescue Throw Line Bag

For areas where the public may have to respond quickly to an emergency.

- Simple-to-operate with quick-release feature.
- Weighted for accurate throwing, even in strong winds.
- Grab-loop at both ends for both rescuer and survivor.
- Wall, rail and post mounted cabinet options are available, please see price box.

Code	Description	Price
PPE548	25m Line	£54.85
PPE560	Wall mounted cabinet	£70.40
PPE561	Rail mounted cabinet	£118.35
PPE562	Post mounted cabinet	£225.45

Lifebuoys & Accessories

Water Safety Essentials.

- Durable Lifebuoys available in 2 sizes – 30" (750mm) or 24" (600mm).
- 24" Lifebuoy available with or without reflective tape. Weighs 1.8kg.
- 30" Lifebuoy with reflective tape is approved by MED/SOLAS/DOT(UK). Weighs 2.5kg.
- Attach Floating Lifeline to Lifebuoy for added safety. Choose non-kinking, UV-stabilised 30m long Orange Floating Lifeline, or an Encapsulated Floating Lifeline ideal for storing in centre of Lifebuoy.
- Store Lifebuoys in sturdy polyethylene housing designed to withstand hostile weather conditions: wall, rail or post-mounted available.
- Optional Front Cover to protect contents (see price box).

Instructions for the use of a Lifebuoy

1. Check the Lifebuoy for any tears or holes. Ensure the Lines are attached to it.
2. Throw the Lifebuoy by approaching to the nearest corner of the swimming pool deck. Bend your knees maintaining your balance and hold the line with one hand.
3. Aim your throw so that the Lifebuoy will fall just near the swimmer and is within the reach. If the Life Buoy is away from the swimmer's reach, throw the Lifebuoy again. Make sure that the Lifebuoy does not hit the swimmer
4. Slowly pull the Lifebuoy with the rope. Make sure to lean your body weight away from the swimmer to pull.
5. If the swimmer is wearing a Life Jacket, hold the collars of the Jacket and pull out the swimmer. If the swimmer is not wearing the Life Jacket, Cross and hold the swimmer's palm; pull upwards and turn the swimmer simultaneously so that the swimmer rests on the Deck.

COSHH REGULATIONS

COSHH regulations applies to a wide range of substances and preparations (mixtures of two or more substances) which have the potential to cause harm if they are ingested, inhaled, or are absorbed by, or come into contact with, the skin, or other body membranes.

Substances hazardous to health can be defined as anything that is a biological agent, labelled as being hazardous to health, included in the list of Exposure Limits, a substantial quantity of dust and anything else that is considered hazardous to health.

Many workplaces will have substances that could be hazardous to health, for example paint, ink, glue and even some beauty products. There are many substances that can cause harm to health but if used properly, almost never do. Substances may also have other dangerous properties e.g. substances could be flammable.

* Please note - products in this section may incur additional carriage costs. Some restocking fees may also apply on large and bulkier items.

GHS Regulation

On the 28th November 2008 the European Council adopted the GHS regulation. The publication followed on the 31st December 2008 meaning that GHS could be applied from the 21st January 2009.

GHS and what it means to you

- GHS - The Globally Harmonised System of Classification and Labelling of Chemicals addresses classification of chemicals by types of hazards and proposes harmonised hazard communication elements, including labels and safety data sheets. The GHS also provides a basis for harmonisation of rules and regulations on chemicals at national, regional and worldwide level, an important factor also for trade facilitation.
- For the European Union the mandatory dates for the implementation are set as below.
- During the transition period between the publication of the European Directive and the effective date for Mixtures of Chemical Substances, both systems are permitted (HSID and GHS). In terms of labelling, HSID and the GHS systems cannot be applied on the same box. The new regulations require companies to reassess their classification and labelling systems.

Systems of classification and implementation calendar:

Substance	Period of transition Until 31st May 2015	Fully Enforced From 1st June 2015
'Pure' Chemical Substances	New GHS	New GHS
Mixture of Chemical Substances	Current HSID or New GHS	New GHS

Flammable Liquid Storage Cabinets

For safe storage of chemicals, paints and hazardous substances as defined by COSHH guidelines.

- Constructed from 18-20 gauge mild steel with a durable, epoxy-polyester powder coated finish and clearly labelled with 'Highly Flammable' hazard warning diamonds that comply with current guidelines.
- All units comply with the Highly Flammable Liquids and Liquefied Petroleum Gas Regulation 1972 and, where appropriate, the Health and Safety Executive Guide HSG51 and DSEAR 2002.
- Doors are fitted with a quality chrome lock (1-point locking on single doors, 3-point on double doors) and are reinforced with steel door stiffeners and fixed within a rebated frame to prevent buckling under extreme conditions.
- Two keys supplied.
- Each cabinet features adjustable shelves and an integral leak-proof base sump.
- Additional Shelves also available (sold separately) see price below right.
- Prevent items being placed on top of 915mm (W) units by fitting a Sloping Top (sold separately) see price box (HCT61).
- Mini Cabinets also available that fit easily under benches or worktops – ideal for schools, laboratories or where low volume storage is required.
- **Please note additional freight charges may apply.**
- **Restocking fees may also be applied should you wish to return one of these products.**

Dangerous Substance Storage Chests

For storage of flammable liquids, chemicals and other hazardous substances

- For storage of flammable liquids, chemicals and other hazardous substance
- Bins are constructed from 20-gauge mild steel with a durable, epoxy polyester, powder coated finish and clearly labelled with new GHS 'Highly Flammable' warning labels
- Supplied with hasp and staple closure for use with a padlock – padlocks sold separately
- Made to the same specification and compliance as the Stackable Storage Cabinets above
- Available with flat or sloping top lids, both of which have a 50mm lip
- Clearly labelled with 'Highly Flammable' hazard warning diamonds. Chests comply with the Highly Flammable Liquids and Liquefied Petroleum Gas Regulation 1972 and, where appropriate, the Health and Safety Executive Guide HSG51 and DSEAR 2002.
- Please note additional carriage charges may apply.
- Restocking fees may also be applied should you wish to return one of these products.

CAS723	Heavyweight Maintenance Pads in Dispenser Box	410 x 510 mm	168 L	1	£184.00

Sorbent Rolls - Maintenance

Provide great absorbency at a low cost.

- Suitable for cleaning up oil, chemical, water, solvent and coolant spills.
- Style No. CAS727 in a convenient pack of 2. Perforations in Style No. CAS727 keep waste to a minimum.
- For absorbing oils, water, solvents and coolants.
- Ideal for large surface areas to ensure fast clean up of leaks and spills.
- High-quality low-lint rolls offer excellent abrasion-resistance.

Code	Description	Absorption			Price
		Size (WxL)	Capacity	Qty	
CAS727	Maintenance Perforated Sorbent Rolls	480 mm x 44 m	192 L	2	£184.00
CAS726	Maintenance Sorbent Roll	960 mm x 44 m	192 L	1	£179.00

Sorbent Pillows - Maintenance

Absorb spills and leaks in tight, hard to reach areas.

- Cost-effective spill control for all applications.
- Use Maintenance Pillows for cleaning up a variety of liquids, including water, coolants, solvents, oil and anti-freeze; simply place under machines to catch drips and leaks.

**Cost-effective spill control
for all applications!**

Code	Description	Absorption			Price
		Size (WxL)	Capacity	Qty	
CAS605	Maintenance	250 x 250 mm	42 L	32	£127.00

CAS733	Oil-Only Flexisoc	17 m x 76 mm	49 L	1 Soc + 30 Clips	£117.00

Sorbent Pads - Chemical

For general everyday use and emergency spills.

- Ideal for dealing with leaks and drips around the workplace, pads are perforated to minimise waste.
- Chemical Pads absorb a wide range of chemicals, acids and caustics – coloured green for easy identification.
- One-sided spun bound material provides extra strength with lower lint.
- Style No. CAS612 includes a small dispenser box which holds 50 pads.

Code	Description	Size (WxL)	Absorption Capacity	Qty	Price
CAS612	Chemical Pads in Dispenser Box	300 x 300 mm	77L	1	£94.99
CAS611	Chemical Pads	410 x 510 mm	89L	100	£97.50

Sorbent Rolls - Chemical

For absorbing a wide range of chemicals, acids and caustics

- Chemically inert, sorbent roll will not degrade or cause a dangerous chemical reaction with the absorbed liquid.
- Green colour alerts workers that product is used for hazardous liquids and ensures correct disposal.
- One-sided spun bond material provides extra strength with lower lint.

Code	Description	Size (WxL)	Absorption Capacity	Qty	Price
CAS728	Chemical Sorbent Roll in Dispenser Box	380 mm x 46 m	75L	1	£108.00
CAS729	Chemical Sorbent Roll	760 mm x 46 m	149L	1	£184.00

Sorbent Pillows - Chemical

Absorb spills and leaks in tight, hard to reach areas.

- Cost-effective spill control for all applications.
- Chemical Pillows are ideal for all chemicals, acids and bases; use on large spills once contained, or in packaging for extra protection during transportation.

Cost-effective spill control
for all applications!

Code	Description	Size (WxL)	Absorption Capacity	Qty	Price
CAS602	Chemical	250 x 250 mm	42L	32	£115.00
CAS601	Chemical	430 x 480 mm	52L	8	£78.75
CAS600	Chemical	430 x 480 mm	104L	16	£134.00

Sorbent Socs - Chemical

Ideal for spills in the workplace.

- These flexible socs fit around any machine, corner or curve to keep your work floor clean and safe.
- Highly absorbent fillers quickly draw in the spill and safely contain the liquid.
- Available in different lengths to suit every application.

Chemical Socs absorb dangerous chemical and acid spills, they are also used to confine spills and prevent them from spreading.

Code	Description	Size (WxL)	Absorption Capacity	Qty	Price
CAS737	Chemical	1.2 m x 76 mm	43L	12	£99.75
CAS738	Chemical	2.4 m x 76 mm	43L	6	£94.99
CAS739	Chemical	3.6 m x 76 mm	43L	4	£89.75

Economy Spill Kit

Portable and easy to store spill kits.

- Handy for use in trucks, as it can be placed under the seat or behind the seat.
- All kits are supplied in a yellow water-resistant bag.
- CAS895 – Re-form kit contains the same contents as the standard kits but the pads are Re-form pads (380 x 480mm) and the socs are Re-form socs.
- Kits are available for Oil only, maintenance and chemical spills, please see price box for codes.

Contents	Qty
Pads 410 (H) x 510mm (W)	10
Socs 1.2m (L) x 76mm (Dia.)	2

Bulk Buy Chemical Sorbents

Save money by purchasing bulk packs of sorbents.

- Each pack contains pads, pillows and socs – see contents table for quantities.

Contents	Qty
Pads 410 (H) x 510mm (W)	100
Pillows 430 (H) x 480mm (W)	8
Socs 2.4m (L) x 76mm (Dia.)	6

* Saving compared to purchasing each item individually.

Code	Price
DJR069	£234.00

Spill Barrier

Help contain or divert a spill

- Barrier is constructed from polyurethane and is resistant to water, oil and most chemicals.
- Bright yellow for visibility.
- Clean with water and soap after use.
- Measures 55mm x 105mm x 3m (HxWxL)

Code	Description	Price
CAS595	Spill Barrier	£249.99

Eco-Friendly Range of High-Performance Sorbents

Eco-Friendly

Re-Form™ sorbents take less away from our environment because they are made from 70% recycled newsprint and other recycled materials.

Better Absorbency

The unique construction of Re-Form™ sorbents make them 25-50% more absorbent than oil based polypropylene sorbents. Also, as you will use less product, you will have less material to dispose of.

Fire Retardant

You don't need to sacrifice fire safety when using Re-Form™ sorbents – they all meet ASTM E84-05 standard.

Re-Form™ Sorbents

Choose from pads, rolls and socs to clear-up hazardous spills.

- All are of netted construction for durability and are suitable for indoor or dry-weather outdoor use.
- Please note that these are general purpose sorbents and are therefore not suitable for use with highly aggressive acids and caustics.

CAS707

Re-Form™ Sorbent Material

- Unique composition absorbs 50% more than traditional sorbents.
- Ideal for use on basic drips and spills.

Bund Flooring

Our Bund Flooring range is the most comprehensive available. Ideal for creating liquid handling workstations and storage areas to fit your working environment.

- Available in 3 sizes, each unit can be used as a standalone workstation or combined to create multiple workflow configurations.
- Each individual unit is compliant with current oil storage regulatory requirements
- 302WBA100 for up to 4 x 100ltr drums
- 302WCA100 & 302WDA100 for up to 4 x 250ltr drums each.
- The low height and a choice of two ramps enables easy access for loading and unloading.
- Optional joint strip covers can be added for a superior finish and optional bund connectors added to link sumps.

Applications

- Modular Work Area.
- Liquid Dispensing Workstation.
- 'Quarantine Area' for Leaking Containers.
- Drum Storage & Handling Area.
- Ink Storage Bund.
- Oil Storage Bund.
- Machine Part Cleaning Area.
- Lubricant Treatment Area.

Low Profile Spill Pallet

Helps contain potentially hazardous leaks.

- Low profile model, suitable for the storage of 4 x 205 litre drums.
- Removable plastic grid for easy cleaning.
- Forklift pockets to aid transportation.
- Measures 275 (H) x 1280 (W) x 1280mm (L) and has a sump capacity of 230 litres.
- Weight: 29kg.

Code	Price
302WEA100	£215.00

2 & 4 Drum Spill Pallets

Heavy duty secondary containment system for 205 litre drums.

- Made from 100% polyethylene.
- Designed for 2 or 4 x 205 litre drums.
- Fork pockets for easy movement.
- Removable plastic grids

Poly Dolly

Transports and dispenses drums with ease.

- U-shaped barrel platform and double looped strap make loading simple.
- Becomes an efficient self-dispensing station – rolled grip handles and kick plates makes tipping easy.
- Acts as its own secondary containment unit holding up to 304 litres.
- Constructed from robust polyethylene.
- Can be lifted from the rear using a forklift truck.

Code	Description	Size (H x L x D)	Weight	Price
CAS552	Drum Truck	670 x 1750 x 820 mm	44.5kg	£825.00

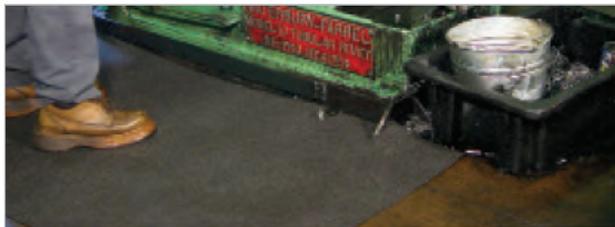

Waste Bags

Safely dispose of hazardous waste

- Hazardous Waste Bags feature large print to warn of potentially dangerous or hazardous contents.
- They are constructed from 500g high-grade polyethylene.
- Both are printed to meet the current requirements of the Duty of Care Regulations and are registered by PIRA under the UN Carriage of Dangerous Goods Act Regulations.

Code	Description	Qty.	Price
HWB1	127 Litre Hazardous Waste Bags	100	£268.00

Anti-Slip Spill Mat

Perfect for high pedestrian traffic areas and walkways that need to be dry, clean and slip-free

- Impermeable barrier film sticks the mat to the floor and prevents liquids leaking through
- Absorbs oil, water and non-aggressive chemicals to prevent unsightly tracking between areas
- Medium-weight mats are made from tear-resistant, needlepunch polypropylene fibres
- Unique backing resists curling
- Choose from 2 roll lengths – see price box

Code	Size (W x L)	Absorption Capacity	Price
CAS717	910mm x 15.25m	46 L	£85.50
CAS718	910mm x 45.75m	140 L	£368.00

COSHH Centres

Provide a central location for data sheets and information.

- Highly visible yellow and black boards ensures that important COSHH information is easily accessible.
- Manufactured from 3mm PVC and fitted with a rust-proof, plastic coated steel rack.
- Control centre features pre-printed COSHH requirements for employee training purposes.

Code	Description	Size (H x W)	Price
CAS619	Control Centre	500 x 650mm	£113.00
CAS620	Information Station	750 x 400mm	£113.00
BDR02	Ring Binder		£31.50

Magnetic Drain Cover

Stop spills fast with this reusable, easy to maintain, lightweight and permanently magnetic drain cover.

- Will adhere to all dirt- and debris-free metallic surfaces – ideal for placing on steel drum storage units where hazardous liquids are kept.
- Weather-resistant and flexible, it can withstand temperatures from -20°C to +80°C and is immune to both acids and alkalis.
- Supplied with wall-mounted storage frame so that drain cover is always close to hand.
- Only 0.9mm thick, but able to withstand a pressure force of 52g/cm².
- Measures 600 (H) x 600mm (W).

Code	Price
DJR071	£83.95

**Reusable
Will Not Pick
Up Dirt!**

MultiZorb

Cost effective spill control.

- Highly absorbent granules available in 20L and 30L absorption capacities.
- Granules are harmless to people, animals, and plants.
- 30L bag absorbs 11.2L of diesel.

CAS0082

Please note 70+ is delivered on a pallet.

Code	Description	Weight	1-49	50+	70+
CAS786	20 Litres	12.5kg	£11.95	–	£6.95

E-Sorb

Ideal for use in spill clean up!

- Flamezorb non-toxic chemical compound effectively smothers flames.
- Suitable for both indoor and outdoor use.
- Fully conforms to BS476 Part 7 Class 2.

FIRE32

Code	Size	1-9	10-69	70+
FIRE32	30 Litres	£8.25	£7.50	£6.50

Please note 70+ is delivered on a pallet.

Powder Absorbent Granules

Up to 30 times more absorbent than clay granules!

- Economical, environmentally-friendly absorbent turns any liquid or semiliquid into a solid.
- Leaves floors clean, dry and instantly safe to walk on.
- Lightweight, easy to use and extremely easy to dispose of.
- Dramatically reduces your clean-up costs, labour costs and costs of waste disposal.
- Suitable for use on any surface.
- NB: Not suitable for use on Hydrofluoric Acid.

CAS785

- Can be used on:**
- Oil ✓
 - Petrol ✓
 - Diesel ✓
 - Alkalis ✓
 - Most Acids ✓
 - Antifreeze ✓
 - Paints ✓
 - Polymers ✓
 - Herbicides ✓
 - Solvents ✓
 - Blood ✓
 - Vomit ✓

CAS783	1 Litre	£3.60
CAS784	6 Litres	£11.95
CAS785	30 Litres	£34.50

PEDESTRIAN & TRAFFIC CONTROL

By law, traffic routes must be suitably indicated where necessary for reasons of health or safety. Using traffic signs will help you to inform pedestrians and drivers of which route they should be taking and instruct drivers on relevant behaviours (e.g. speed limits)

You need to place your sign where pedestrians and drivers can see them and have time to understand and make sure that they action it accordingly. If driving is likely to be carried out in the dark then the signs should be illuminated or reflected.

Class Ref 1 Reflective Traffic & Works Safety Signs

Improve safety on your site, loading areas and the approach roads to your premises.

- Manufactured from 3mm aluminium with a durable Class Ref 1 reflective face.
- Traffic signs comply with BSEN12899-1:2001.
- Additional signs and materials available, please call for a quote.

Titan Safety Barrier Fencing

Stackable road barrier, extremely easy to assemble and use.

- Sturdy one-piece injection moulded construction is robust and rugged for the demands of everyday use.
- Central struts throughout the centre areas provide extra stability and prevent access to the work zone.
- Struts also contain integral moulded finger grips for easy movement.
- Fully reflective top panel meets BS873.
- Simple to use robust linking system allows for easy and secure assembly.
- Factory fitted swivel feet for additional security.

Create unique configurations

Easy to carry

Code	Description	Price
TRAF517	2m Barrier	£61.15

Curved configurations

Can be tilted

Roadbloc™ Barrier System

Definitive barrier system combining maximum visibility with stability and versatility.

- Ideal for controlling flow of pedestrians, lane delineation or even temporary parking bays.
- 45° hinge connection allows for curved or straight line configurations.
- Also allows for each unit to be tilted so the barriers can be used on uneven ground.
- Solathene HD construction with water tight seams allows water or sand to be used as a ballast.
- Contains a large threaded plug for easy filling and drainage of water.
- Features interlocking feet which allow the units to be stacked efficiently.
- Available with highly reflective strips which fit within the recessed area at the top of the unit.
- Replace asterisk (*) in product code with required colour, R – Red, W – White.
- Size: 600 x 450 x 1000mm (H x W x L).

- Central struts throughout the centre areas provide extra stability and prevent access to the work zone.
- Struts also contain integral moulded finger grips for easy movement.
- Fully reflective top panel meets BS873.
- Simple to use robust linking system allows for easy and secure assembly.
- Factory fitted swivel feet for additional security.

Code	Description	Price
TRAF517	2m Barrier	£61.15

Roadbloc™ Barrier System

Definitive barrier system combining maximum visibility with stability and versatility.

- Ideal for controlling flow of pedestrians, lane delineation or even temporary parking bays.
- 45° hinge connection allows for curved or straight line configurations.
- Also allows for each unit to be tilted so the barriers can be used on uneven ground.
- Solathene HD construction with water tight seams allows water or sand to be used as a ballast.
- Contains a large threaded plug for easy filling and drainage of water.
- Features interlocking feet which allow the units to be stacked efficiently.
- Available with highly reflective strips which fit within the recessed area at the top of the unit.
- Replace asterisk (*) in product code with required colour, R – Red, W – White.
- Size: 600 x 450 x 1000mm (H x W x L).

Curved configurations

Can be tilted

Price per barrier. Must be bought in pairs.

Code	Description	Price
TRAF951/*	Roadbloc™	£77.25
TRAF952/*	Roadbloc™ and Reflective Strip	£82.50

Portagate Barrier

4 gate portable work barrier

- Easy to store and setup.
- Panels on the gate have R1 reflective panels to increase visibility in darkness.
- Manufactured from high density polyethylene.
- Can be positioned in several ways, simply slide the top hinge clip down to lock securely in place. Able to create a square, triangle or straight line.
- Size 1000 x 750mm

Code	Price
301KQA130	£114.99

Titan Expanding Barrier

Ideal for use indoors and out.

- Weighs 10.5kg - light enough to transport with ease but stable enough to withstand windy conditions and uneven roads.
- Polypropylene/PVC construction will not rot, chip or rust.
- Unique clips allow you to connect multiple barriers.
- Measures 1000 (H) x 550 (W) x 600mm (D) - expands to over 3m.

Code	Price
TRAF851	£112.99

Please specify colour (Yellow/Black, Red/White or Blue/White).

Sand Weighted Traffic Cones

This range of cones has been specifically designed to meet the requirements of the Road and Street Works Act 1991.

- Made from super-tough polymers and tested to -16°C.
- Supplied with BS 873 D2 reflective sleeve for extra night time safety.
- Can be stacked to save valuable space.
- Red sand weighted cone is available in 3 sizes. Please see price box for details..

Colours available:

Code	Height	Colour	Price
TRF0001	450mm	Red	£6.99
TRAF810	750mm	Red	£12.99
TRAF811	1000mm	Red	£19.99
TRAF879	750mm	Green	£12.99
TRAF880	750mm	Blue	£12.99
TRAF881	750mm	Yellow	£12.99

Extending Barrier Cone Pole

- Designed to fit over 2 traffic cones to provide quick and easy demarcation
- Cone poles feature 80mm (dia.) end loops allowing for use with virtually any traffic cone
- Extends from 1100 to 2100mm
- Lightweight and portable, can be easily stored when not in use
- Suitable for temporary car park barriers and blocking of parking bays
- Available in red/white or black/yellow striping

Code	Colour	Price
TRAF704	Black/Yellow	£21.20
TRAF705	Red/White	£21.20

Tensacone® Barrier Kit

Creates a more effective barrier than cones alone.

- Ideal for construction sites, warehouses and highway agencies.
- Simple to use – pull the tape from 1 unit and connect to the top of another cone (placed up to 3.65 metres away) to create a temporary highly visible barrier in seconds.
- Kit contains: 4 x Sand Weighted One Piece Traffic Cones and 4 x Tensacone® Barrier Units.
- Each Tensacone® unit contains 3.65metres of retractable webbing.
- Webbing available in red and white or black and yellow (orange casing as standard).

Webbing colours available:

Code	Description	Price
TRAF909/R/W	Tensacone® – Red/White Webbing	£54.75
TRAF909/BK/Y	Tensacone® – Yellow/Black Webbing	£54.75
TRAF910/R/W	Tensacone® Kit – Red/White Webbing	£241.00
TRAF910/BK/Y	Tensacone® Kit – Yellow/Black Webbing	£241.00

Roadhog Traffic Cone

Durable and robust cone ideal for use in car parks.

- Single piece construction moulded from 100% recycled PVC.
- Weighted base for added stability.
- Fitted with class R1B reflective sleeve which complies with EN13422.

Code	Height	Price
TRAF812	500mm	£9.50
TRAF813	750mm	£17.50

Dominator Traffic Cones

Offer great reflectivity!

- 2-part cone with heavy-duty thermoplastic base for excellent stability.
- Cell walls prevent water migration in the event of damage, vastly improving the durability and longevity of the sleeve.
- Certified to BS873-8 D2.

Code	Height	Price
TRAF1028	500mm	£15.50
TRAF814	750mm	£17.50
TRAF815	1000mm	£22.50

Roadhog No Waiting Cone

Convey a visual warning to motorists with this sturdy one-piece cone.

- Made from 100% recycled, durable plastic.
- Will withstand the rigours of daily use.
- Features a distinctive black base area for added stability.

Code	Height	Price
PED200	500mm	£19.99

No Waiting Cone

Identify temporary parking restrictions.

- A highly visible yellow cone with a raised moulding showing the 'No Waiting' symbol on all sides.
- Excellent stability is achieved by a combination of weight (3.5kg) and a base width of 400mm.
- Can be neatly and safely stacked to save space when not in use.

Code	Height	Price
NCW1	570mm	£12.99

Colour - Coded

Warning Cones

Highlights hazards indoor and out.

- Choose from 4 highly visible colours.
- Sand weighted base area for added stability.
- Measures 450mm (H).
- Durable, moulded plastic construction.
- Price per cone. Please specify colour (red,yellow,blue or green).

Code	Height	Price
TRAF218	450mm	£9.50

SIT1467

Wall-Mount TensabARRIER® Units

Ideal for temporarily closing off an area or walkway.

- Simply pull webbing from cassette and attach to the supplied wall clip.
- Webbing retracts back into the cassette when released.
- Choose from 2.3, 4.6, 7.7 and 9m webbing lengths.

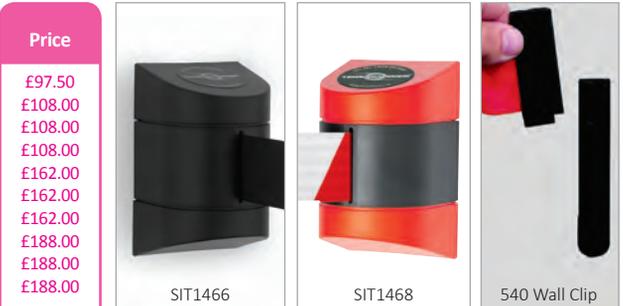

Please specify webbing colour.

Code	Description	Price
540	Wall Clip	£7.25

SIT1474	Red/Black	9 m	Black or Red/White

TensabARRIER® Advance Barrier System

Flexible and stylish queue management system.

- Simply pull the webbing out and clip to the next post – webbing retracts back into the cassette when released.
- Brake system ensures webbing retracts in a controlled manner and innovative anti-tamper locking device prevents webbing from being accidentally released.
- Features four-way connectivity for versatility and weighted base for added stability.
- Webbing supplied in 2.3m lengths as standard.

Price per post with webbing.

Please specify webbing colour: (red, blue, black, grey, green, yellow, yellow/black chevron, red/white chevron or red/black stripe)

Code	Description	Price
SIT1447	Black Post with Webbing	£130.00

Webbing colours available:

SIT1399

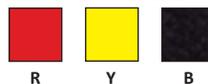

Heavy-Duty Post Barrier System

Perfect for cordoning off hazardous areas both indoors and out.

- Durable and weather-resistant UPVC posts with four-way connectivity and 3.65m (L) webbing.
- Bases are made from strong recycled rubber and are stackable for easy storage.
- Posts simply screw into base.
- Please specify post colour (red, yellow or black).

Price per post.

Post colours available:

Code	Colour	Price
SIT1399	Yellow/Black	£140.00
SIT1400	Red/White	£140.00

Quick Barrier

The Quick Barrier can replace all other forms of temporary barriers. It's unique and compact design means it can be easily carried around and deployed by one person. The durable webbing can be adjusted to half of its length and tensioned whilst remaining fully useable.

- Made from a woven polyester webbing.
- 48mm wide with clip action buckle.
- Available in 2, 4, 6 and 12 metre lengths.

Code	Description	Price
SIT0070	2m Length	£24.99
SIT0071	4m Length	£29.99
SIT0072	6m Length	£34.99
SIT0073	12m Length	£39.99

Economy Wall-Mount Barrier Unit

Screw to the wall to create an instant barrier.

- Ideal for restricting access and closing off areas or walkways.
- Simply pull webbing from cassette and attach to wall clip on the adjacent wall (fixings supplied).
- Webbing retracts back into cassette when not in use.
- Black steel cassette contains 2.3m (L) 'Caution Do Not Enter' webbing.

Code	Description	Price
SIT1479	'Caution Do Not Enter' Webbing	£53.99

Barrier Fencing

Safety barrier fencing enables you to construct a quick and easy temporary fence. With one roll of barrier fencing and just a few pins, a temporary fence can be erected in minutes.

Code	Size	Price
TRF0251ORG	50m x 1m	£24.95
FENCE	1330mm (H)	£4.95

Debris Netting

Keep people and traffic safe from falling debris near scaffolding.

- Made from durable heavy-duty knitted polyethylene.
- Net construction reduces wind and rain penetration while also allowing air to circulate, providing a better environment for workers.
- Eyelets down length of netting at 10cm intervals for fixing with cable ties.
- Size: 2m x 50m.
- Weighs: 6.2kg.
- Available in green or blue, please see price box for codes

Code	Colour	Price
TRF0605	Green	£33.95
302KTA100	Blue	£33.95

Skipper™

Skipper Road Cone

The revolutionary cone that outperforms its competitors in all areas.

- Helical design deflects wind away and adds to stability.
- Prismatic, glass bead sleeve produces up to twice the reflectivity of standard cones.
- Perfect for many applications, from traffic to industrial and commercial.

Code	Description	Price
TRAF1217	Skipper Road Cone	£21.95

Skipper™

Skipper Post & Base System

A versatile alternative to a cone with an interchangeable base.

- Interchangeable base means it can be used on hard or soft ground, indoors or outdoors.
- Pour water or sand into the base for extra stability.
- Colours Available: Blue, Green, Red, Silver & Orange.
- Please specify when ordering.

Code	Description	Price
CBS08	Skipper Post & Base System	£39.99

Skipper™

Skipper A4 Sign Holder

- Perfect for warnings, promotions and messages.
- Clicks on top of Skipper units.
- Simply insert your A4 sign.

Code	Description	Price
CBS05	Skipper A4 Sign Holder	£36.99

Skipper™

Skipper Dummy Unit

This unit is a Skipper unit but does not contain tape.

- As with a normal Skipper unit, you can attach an end clip to the dummy unit.
- The dummy unit can be used as an 'end unit' where the line of tape needs to go.
- Available in five colours: Blue, green, orange, red & silver.

Code	Description	Price
TRF0007	Dummy Unit	£33.99

Skipper™

Skipper Retractable Barrier

Skipper is the unique way to cordon off any area, creating safer environments with high visibility retractable 9m tape.

- Clicks on top of all traffic cones or its own unique post and base system.
- Saves you time, storage and money.
- Please specify colour of webbing required.

Webbing Colours Available:

Red/White Black/Yellow

Code	Description	Price
CBS01	Skipper Retractable Barrier	£56.99

Skipper™

Rechargeable Safety Light

- Multi-functional LED light.
- Fully Rechargeable.
- Includes a light sensor for automatic activation.
- Requires 6xAA batteries (not included).

Code	Description	Price
CBS04	Skipper Rechargeable Safety Light	£41.99

Skipper Wall & Magnetic Support Brackets

- Holds the Skipper unit. Screw to a wall or attach to magnetic surface.
- Unlike the magnetic version the wall support brackets are intended for permanent/semi-permanent fixture.

Code	Description	Price
CBS11	Skipper Wall Support Bracket	£29.99
CBS12	Skipper Magnetic Support Bracket	£31.99

Skipper Wall & Magnetic Receiver Clips

- Holds Skipper tape end. Screw to a wall or attach to magnetic surface.
- Magnetic version is ideal for attaching to vehicles or metal shelving.

Code	Description	Price
CBS06	Skipper Wall Receiver Clip	£9.99
CBS07	Skipper Magnetic Receiver Clip	£11.99

Skipper™ Inside Safety

Skipper XS Unit

Designed for use without cones or posts.

- Contains 9m retractable high visibility tape.
- Has new connector points to affix to its range of accessories.
- Can be used indoors to provide barriers when you need them.
- Available in Red/White or Yellow/Black. Please specify when ordering.

Code	Description	Price
TRF0003	Skipper XS Unit	£52.99

The great Skipper XS range.

Skipper Magnetic Strap Holder/Receiver

- Can attach to pillar using the cord or simply via the magnetic backing.
- Once in place the receiver can then hold either the XS unit in place or be used to receive the tape end clip.

Code	Description	Price
TRF0004	Suction Cord Strap Holder/Receiver	£20.99

Skipper Clamp Holder/Receiver

- Connects to horizontal and vertical surfaces.
- Holds and receives the Skipper Unit and tape end clips.
- Used to attach the Skipper XS unit and/or tape end to angular surfaces, such as door frames and racking.

Code	Description	Price
TRF0005	Skipper Clamp	£41.00

Skipper Suction Pad Holder/Receiver

- Connects to high gloss surfaces & glass.
- Easy to attach and remove.
- Once attached the suction pad can then either hold the XS unit in place or be used to receive the tape end clip.

Code	Description	Price
TRF0006	Suction Pad Holder/Receiver	£25.00

Easyline Paints

Quickly and easily apply highly durable, 'traffic-grade' epoxy aerosol paint with the easy-to-use applicator.

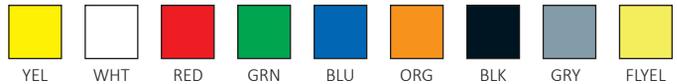

- Comply with current health and safety legislation – use to produce clear demarcation lines on factory floors, car parks and warehouses.
- Applicator can produce 3 line widths (50mm, 75mm and 100mm) and features adjustable rear wheels to allow line marking close to walls and racks.
- Supplied with 2 sets of Masking Plates, additional Masking Plates sold separately.
- Up to 75m of line will be produced per can of aerosol paint (based on the 50mm width setting).
- Paint dries in 10 minutes – reducing costly down-time.
- ROCOL EASYLINE® Edge Applicator is specifically designed for use with ROCOL EASYLINE® Edge Aerosol Paint – other aerosol cans are not compatible.

1. Ral Colours

Available in eight RAL matched colours and one fluorescent – ideal both indoors and out.

- Unique propellant system gives consistently clear lines throughout the life of the can.
- Supplied with 2 coloured nozzles - yellow for line marking, white for freehand marking.

Paint colours available:

2. Handheld Applicator/ Edge Applicator

Ideal for freehand marking and for use with stencils in car parks, playgrounds and recreational areas.

- Comfortable even during extended periods of marking.
- Suitable for smaller areas of marking and stenciling.

3. Hardcase Storage

Unit folds away for neat storage in the hard case supplied.

For Style No. TRAF729 please specify colour (black, blue, green, grey, orange, red, white, yellow or fluorescent yellow).
